

# New Product Announcement

**NEW ACCESSORY - AVAILABLE FEBRUARY 2014**

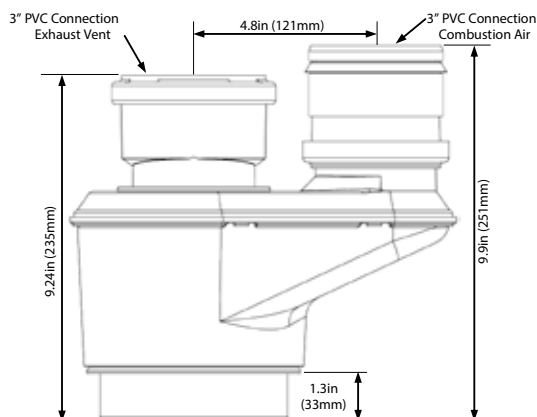

## UBBINK® CONCENTRIC TO TWIN PIPE ADAPTOR FOR USE WITH RINNAI CONDENSING TANKLESS WATER HEATERS

The Ubbink Concentric to PVC Twin Pipe Adaptor makes it possible to use PVC instead of Concentric Polypropylene. The adaptor splits the exhaust and intake allowing two PVC pipes to be installed for venting rather than one concentric vent.

The new Twin Pipe Adaptor:

- Provides more options for venting and termination
- Can be used with PVC/CPVC pipes and fittings
- Can use the IPEX Concentric Vent Kit (CVK) Assembly (System 636), snorkel termination or tee terminations
- Adaptable to 3 and 4-inch sizes
- ULC S636 approved

NOTE:  
For use with Rinnai Condensing Tankless Water Heater models REU-KB3237FFUD-US (RU98i) and REU-KB2530FFUD-US (RU80i)

### PRODUCT ORDERING SUMMARY

Product Number: 187585PP

UPC: 8713645179537

Carton Dimensions: 9.84" L x 7.48" W x 10.04" H

Shipping: 60 Pieces Per Pallet

Carton Weight: 1.40 lbs

VENT TYPE	NATURAL GAS UNITS MAXIMUM EQUIVALENT VENT LENGTH	PROPANE UNITS MAXIMUM EQUIVALENT VENT LENGTH
3" PVC/CPVC	65 Feet*	41 Feet
4" PVC/CPVC	100 Feet	65 Feet

**NEW: LONGER CONCENTRIC VENT LENGTHS FOR RINNAI CONDENSING NATURAL GAS UNITS.**

Concentric PP	65 Feet*	41 Feet
---------------	----------	---------

\* Maximum equivalent vent lengths are specific to the fuel type of the tankless water heater. Use of elbows in installation will reduce the maximum vent length. It is imperative when performing equivalent vent length calculations, that you refer to the Installation Manual and any applicable technical bulletins.
